

Automatic Hand Dryers

The industry's finest automatic hand dryers

We design and build every hand dryer you'll see in these pages – just for Tekflo customers. These are unique, innovative hand dryers that combine cutting-edge features and technology, beautifully.

Hand dryers – there's no one-size-fits-all solution. They need to be smart and stylish, powerful but quiet. They need to clean hands quickly and hygienically. They need to work on-and-off all day every day – but still be cheap to run. So how do you choose the right hand dryer? Tekflo has designed our range to meet all requirements, bringing you four innovative hand dryers for the smallest low-volume washroom to the biggest high-volume stadium.

Tekflo hand dryers combine ultra-fast drying times with minimal operating costs. They're made from the finest components and designed for the most energy-efficient use.

And, when you buy a Tekflo hand dryer you get more:

- 2-year warranty – as standard.
- Impeccable safety – All our products are RoHS and CE approved, for your complete peace of mind.
- Unique technology – we don't sell any hand dryers we don't make ourselves.
- Our research team is one of the best in the business – their innovative ideas help us keep our costs down, without ever compromising.
- Despatch within one working day of your order.
- Guaranteed next day delivery.
- Customisation options - Tekflo gives you the opportunity to customise your hand dryer with bespoke colour and branding.

About Tekflo

Tekflo's mission is simple - to provide the very best in automatic hand dryers to private customers and trade customers, including wholesalers, architects, specifiers and contractors. Tekflo gives you the performance and reliability of bigger manufacturers, but at a fraction of their prices. That means you'll be able to find the most cost-effective option for your school, shopping centre, office, factory, hotel...

We've been designing, manufacturing and selling innovative, automatic hand dryers since 2008. In that time, we've seen some significant advances in technology that have helped make our hand dryers quieter, quicker and cheaper to run. We've had lots of great feedback too. Customers have told us what they expect from their hand dryers, and we've taken all of that insight on board to develop a range that is reliable, effective and stylish.

All our hand dryers are made to exacting standards. For us, quality and a commitment to competitive pricing is a way of life. Nothing else is acceptable. This philosophy has inspired us to develop products that are leading the industry.

Essential Hand Dryer

The great value dryer that's quiet, quick and stylish

You need a compact, cost-effective hand dryer that works well and looks good. Your patrons, clients or staff need a fast, effective dryer that's clean and easy to use. The TEKFL0 Essential Hand Dryer fits the bill. It's got a sleek, compact design and a hardwearing, corrosion-proof Stainless Steel casing. Made for light to frequent duty use, it's ideally suited to smaller washrooms and offices, restaurants, sports clubs and bars. But what's it like to use? Quick and quiet. An operating volume of 72dB and a wet-to-dry speed of 20 seconds sets it apart from other hand dryers in this price range.

Product Features:

- Stylish, curvaceous appearance
- Durable Stainless Steel casing protects against corrosion and vandalism
- Automatic 'no touch' operation makes this a hygienic choice
- Low energy use with its 1.5kW rating to help reduce your carbon footprint
- Auto cut-off prevents unnecessary energy wastage
- Drying time is around 20 seconds from wet-to-dry – a commendable speed for a product in this price bracket
- Quiet – at just 72dB this is ideal for smaller washrooms or low to medium traffic areas
- Lightweight (light enough to go on any wall), easy to install and maintain
- Finishes available in Brushed Metal, Polished Chrome and Arctic White

Technical Specifications:

- Shell material: 304 Stainless Steel
- Standard finishes: Brushed Metal, Polished Chrome, Arctic White
- Rated Voltage: AC 220-240V
- Rated frequency: 50 / 60 Hz
- Rated power: 1,500W
- Installation: wall mounted
- Drying Time: 20 Seconds
- Air Speed: 12 M/s
- Noise Output: 72dB
- Operation: infrared automatic 'No Touch'
- Timing protection: 60 Seconds auto cut off
- Thermal protection: cut off above 70C
- Drip proof: IPX1
- Unit dimensions: 225 W x 160 D x 282 H mm
- Net weight: 4.0 kg
- Warranty: 2 Years
- Certification: CE, RoHS
- Package contents: hand dryer, installation accessories and user manual

Find out what makes this our most popular hand dryer...

What makes this such a popular hand dryer with our customers? Three things: robust (but stylish) design, reliability and consistently high performance. Looks matter. So this is a hardwearing hand dryer that'll keep its looks, thanks to a spic-and-span Stainless Steel casing. Reliable? This is the industry workhorse. The one you can rely on month after month after month. High performance? This is one of the most powerful dryers in its price bracket. The TEK FLO Classic dries hands in 12 seconds flat, and at just 70 dB still keeps things nice and quiet. It's the perfect choice for high traffic washrooms, including nightclubs, airports, service stations and shopping centres.

Product Features:

- Classic good looks – this is a drier that will look good in any environment
- Heavy duty Stainless Steel casing gives exceptional protection against corrosion and vandalism
- Automatic 'no touch' operation ensures impeccable hygiene
- The powerful 2,300W motor, wide mouthed nozzle and sturdy heating element provides a wide tunnel of fast moving warm air to dry hands in just 12 seconds.
- Auto cut-off prevents unnecessary energy wastage
- Powerful but quiet compared with other driers in its class – just 70dB
- Rotating nozzle can be maneuvered 360° allowing users to dry hands and face
- Easy to install and maintain
- Finishes available in Brushed Metal, Polished Chrome and Arctic White

Technical Specifications:

- Shell Material: 304 Stainless Steel
- Standard finishes: Brushed Metal, Polished Chrome, Arctic White
- Rated voltage: AC 220-240V
- Rated frequency: 50 / 60 Hz
- Rated power: 2,300W
- Installation: wall mounted
- Drying time: 12 Seconds
- Air speed: 30 M/s
- Noise output: 70dB
- Operation: infrared automatic 'no touch'
- Timing protection: 60 seconds auto cut off
- Thermal protection: cut off above 70C
- Drip Proof: IPX1
- Unit dimensions: 267 W x 235 D x 210 H mm
- Net weight: 5.0 kg
- Warranty: 2 years
- Certification: CE, RoHs
- Package contents: hand dryer, installation accessories and user manual

Minimal power consumption, maximum performance

It's called the Advanced Hand Dryer for good reason...With a drying time of just nine seconds, it's as fast as they come. But you won't have to pay more for top speed; the TEKFL0 Advanced helps reduce your energy consumption and your carbon footprint. It's not just more powerful and more energy-efficient; it's quieter too – the Advanced Hand Dryer operates at just 75 dB. The Advanced name extends to the design as well; this is a chic, streamlined dryer. Just because it's a utilitarian item, it doesn't have to look like one. All of this means it's the perfect choice for high traffic washrooms, including restaurants, schools, bars and hotels. TEKFL0 gives you Advanced performance at a price to suit a mid-range budget.

Product Features:

- Its contemporary, sleek, ergonomic design makes this an exceptionally stylish dryer
- Heavy duty Stainless Steel casing gives excellent ongoing protection against corrosion and vandalism
- Automatic 'no touch' operation ensures impeccable hygiene
- Users enjoy an ultra-fast drying time of just nine seconds!
- No unnecessary energy wastage thanks to the automatic cut-off
- Reduced noise levels make this one of the quietest and most discrete dryers in any class
- High brightness blue LED light indicator clearly indicates the drying zone ensuring ease and effectiveness of use
- Easy to install and maintain
- Finishes available in Brushed Metal, Polished Chrome and Arctic White

Technical Specifications:

- Shell material: 304 Stainless Steel
- Standard finishes: Brushed Metal, Polished Chrome, Arctic White

- Drip Proof: IPX1
- Unit dimensions: 325 W x 278 D x 171 H mm
- Net weight: 6.0 kg
- Warranty: 2 Years
- Certification: CE, RoHS
- Package contents: hand dryer, installation accessories and user manual

The premium level hand dryer

The basic hand dryer hasn't changed all that much over the years. But the Twin Blade system is a trailblazer. Fast and quiet, efficient and economical, it's a great choice for high throughout washrooms, giving patrons a hygienically clean way to dry their hands in just eight seconds. TEKFL0's Blade Hand Dryer scores highly for its looks too. It's sleeker and more stylish than the common-or-garden hand dryer. There's another useful improvement... The Twin Blade collects excess water within the unit. That means no wet floors, no slipping hazards, and no need for regular maintenance trips to dry bathroom floors. The Blade is a great choice for high traffic public washrooms, including large offices, hospitals, gyms and cinemas.

Product Features:

- The contemporary, ergonomic style gives the Blade its streamlined look
- A heavy-duty Stainless Steel casing offers excellent protection from corrosion and vandalism
- Automatic 'no touch' operation ensures impeccable hygiene
- Air is exerted from its double injection air-flow system, which results in a drying time of just eight seconds
- Auto cut-off eliminates energy wastage
- Reduced noise levels make this a discrete dryer
- High brightness blue LED light indicator clearly indicates the drying zone ensuring ease and effectiveness of use
- Heating and power controller enables you to control output settings
- Easy to install and with a removable drip trap and air filter, it is effortless to maintain
- Finishes available in Brushed Metal, Reflex Silver and Arctic White

Technical Specifications:

- Shell material/s: ABS Plastic and 304 Stainless Steel
- Standard finishes: Brushed Metal, Polished Chrome, Arctic White
